

//// Quick Check for SAP Intralogistics

KNOW WHICH SOLUTION FITS THE BEST

inconso – your consulting and software partner

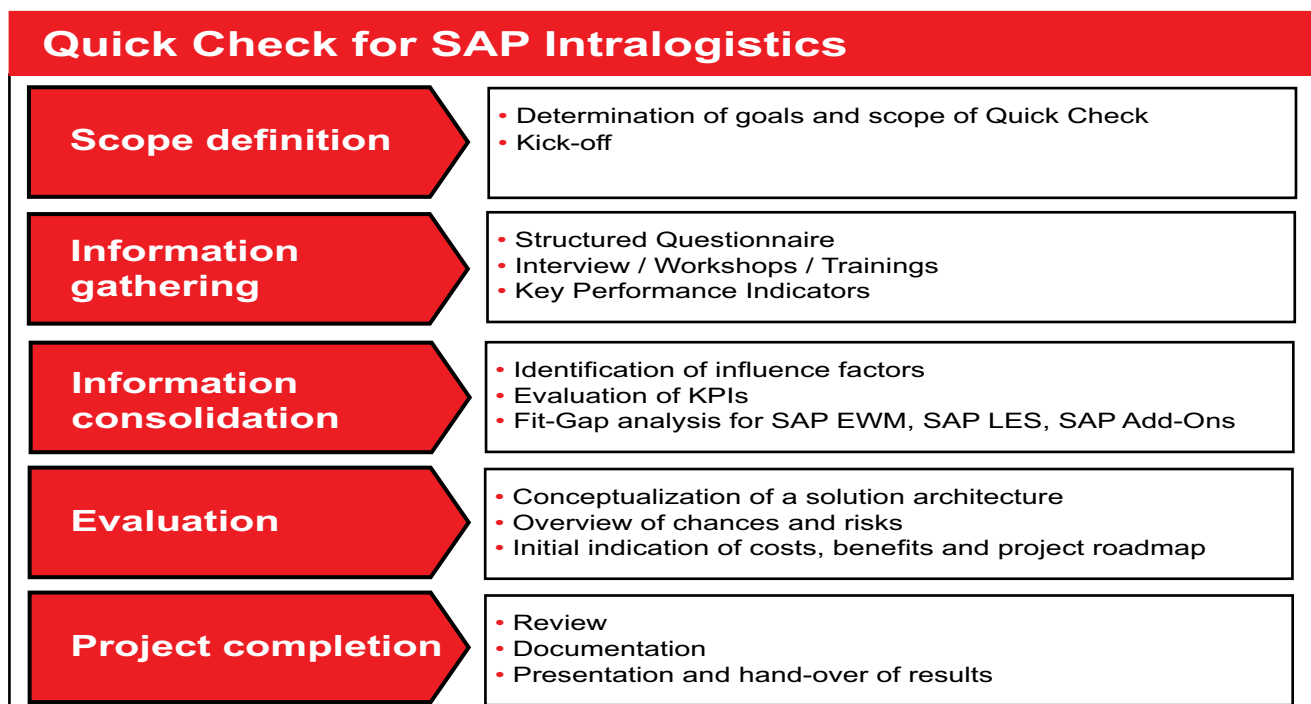

//// Quick Check for SAP Intralogistics

QUICK CHECK FOR SAP INTRALOGISTICS

//// Warehouse Management with SAP

SAP offers both SAP LES and the new IT solution SAP EWM for warehouse logistics. What possibilities does SAP EWM offer? Or does SAP LES fit better? With the Quick Check for SAP Intralogistics, you receive a consultation with an overview regarding the functional scope, the cost effectiveness and future sustainability of the solutions.

Quick Check for SAP Logistics

We find the right SAP solution – for you and your warehouse!

inconso supports you in identifying the potential benefits strived for and the added value that can be achieved in advance of your IT project start. With the Standard Quick Check for SAP Intralogistics, estimates can be made regarding the performance, the fit and the expected costs based on the results of the check.

//// Standard Quick Check for SAP Intralogistics

- Project duration
ca. 2 weeks
- Deadlines
3 workshops
- inconso team
2 consultants (supplemented by subject specialists if required)
- Price: 5.950,00 Euro plus VAT

The Extended Quick Check for SAP Intralogistics takes the check process one step further – individual processes are analyzed in detail and evaluated in three addition workshop appointments. The implementation possibilities for the individual processes in the scope of SAP EWM and SAP LES are evaluated.

//// Extended Quick Check for SAP Intralogistics

- Project duration
ca. 4 weeks
- Deadlines
6 workshops
Possibility of 1 reference visit (if required)
- inconso team
1 project manager
2 to 3 consultants (supplemented by subject specialists if required)
- Price: 11.950,00 Euro plus VAT
